

## LABORI ATTENDS COURT-MARTIAL

Major Grenier the First Witness.

TESTIMONY FAVORABLE TO ACCUSED.

When Maj. Rattin Took the Stand, Dreyfus' Attorney Demanded to Know If He Was Responsible For the Schneider Forgery—He Was Silent, But Later Replied: "I Have No Right to Answer"—London Dispatch Says Labori Received Two Suspicious Packages, Supposed to Contain Bombs.

Rennes, Aug. 22.—Major Grenier was the first witness this morning at the Dreyfus court-martial and his testimony was favorable to Dreyfus. He said that Esterhazy had a bad character. When Grenier had finished, M. Labori notified the court that he wished the latter to recall General Mercier. Major Rollin, of the intelligence bureau, took the stand. Labori demanded to know if the witness was responsible for the Schneider forgery and the witness was silent. Labori put the same question to Mercier, who replied: "I have no right to answer." "No right to hide the truth behind a pretext of secrecy," exclaimed Labori, fiercely. "I insist on an answer." Mercier again replied: "I have no right to answer." Labori said: "We'll let this stand then that you refuse to answer. I expect similar refusals during the trial."

Labori Becomes Fatigued. Labori's reply to Col. Jouhaux's speech, fatigued him. He sat down flushed and holding his side. Afterwards he nervously twitched his fingers and an expression of suffering flitted over his face.

Mme. Rejane, the celebrated actress was present at the trial. She came here especially to see the trial and Labori's return into the case and applauded his (Labori's) entrance vigorously.

The next point was made by Dreyfus in reply to Major Rollin. The latter had remarked that all of the prisoner's papers were seized when his rooms were searched in 1894. Jouhaux said he was certain the papers from the text book "School of War," were found missing. The prisoner retorted: "Not in 1894, my colonel." This caused a sensation, as the obvious interpretation was that the papers were torn out at the war office, and that then the fact was used against him as an insinuation that he had communicated the missing pages to foreign agents.

Eloquent Plea for Justice.

The deposition of Scheurer-Kestner, former vice president of the senate, was read. It outlined the origin and progress of the Dreyfus movement, ending in an eloquent plea for justice. Scheurer-Kestner was the first of a political prominence to assert a belief of the innocence of Dreyfus. In 1897 he laid the proofs obtained of Esterhazy's guilt before Gen. Billot, but that officer refused to act. Scheurer-Kestner then communicated his interview with Billot to Temps.

The next day Mathieu Dreyfus publicly accused Esterhazy of being the author of the bordereau instead of Dreyfus and the affair was on.

Lieut. Col. Bertin-Mourrot then took the stand and testified impressively against the conduct of Dreyfus toward the general staff. He denied ever admitting that Dreyfus was innocent.

Ferret, a Porter, Testifies.

Ferret, the porter in war office, next testified to seeing Dreyfus prying with other officers' work during their absence. The prisoner replied excitedly that Ferret's statements were concoctions by the former minister of war, which caused a sensation. Then the prisoner stated in a cooler manner that there were difficulties in the way of a civilian, such as Ferret entering the offices of the general staff. Gen. Gorse thereupon presented two letters to the effect that the writers, who were both civilians, obtained easy admittance to the offices. Dreyfus retorted that regulations were very strict in this respect and therefore some person was guilty of a gross breach of discipline.

Damage scored by adding that if entry in those offices was so easy, anybody could procure information that Dreyfus, whom it is alleged, obtained surreptitiously.

Dreyfus Shows His Gratitude.

When the court adjourned today, Dreyfus, with a beaming face, despite the fatigue, rushed over to Labori, and shook his hand, murmuring his thanks for the lawyer's brilliant work in his defense today. As Labori left the court room he was greeted with an enthusiastic demonstration by the crowds in the streets.

May Have Been a Plot.

London, Aug. 22.—[Special]—A dispatch says that Labori received two suspicious looking packages supposed to contain bombs.

Trial May Last Another Month.

New York, Aug. 22.—Georges Clemenceau cables to the Journal and Advertiser from Paris: "The trial at Rennes will surely last

much longer than had been expected. At this present moment there are enough witnesses to occupy the court down to Sept. 2, but new witnesses are gathered from day to day and held over to the end of the present list.

"Moreover, some capital questions, such as the Mercier-Schneider forgery, and another very strong case which has not been spoken of yet, yet in which Gens. Mercier and Chanoine are strongly implicated, will surely occupy several sittings of the court. If matters are to be made clear, therefore, there is no use to anticipate the end of the debates before Sept. 10 or 15. And I should not wonder if things came still later to a close."

Attaches to Be Carried.

Rome, Aug. 22.—An official note that has been communicated to the press states that Germany, Austria and Italy will not permit their military attaches at Paris to make further statements concerning the Dreyfus affair.

## WILL GUERIN GIVE UP?

Anti Semite Leader Not Yet Disturbed—Starvation Stares Him in the Face.

Paris, Aug. 22.—[Special]—Guerin, the anti-Semite leader has not as yet been disturbed in his stronghold. The police believe he and his companions will soon be forced to surrender as starvation stares them in the face. Paris remains calm, the government, however, is vigilant.

Paris, Aug. 22.—A detachment of infantry has commenced an attack upon Guerin's house, which is likely to lead to bloodshed. Nobody is allowed to approach the scene and the cavalry charges are needlessly brutal. From now on all the churches will be guarded by pickets of republican guards and detachments of infantry and cavalry will be held in readiness for eventualities. The damage done by the rioters to the church of St. Joseph is estimated at 8,000 francs. The church is surrounded by a cordon of police and no one else is allowed to approach the building.

It is pointed out that most of the persons arrested for rioting are youths from 15 to 20 years old.

The papers of this city, in commenting on the riots which took place here Sunday, are unanimous in pronouncing the situation to be of the most serious character. The conservative and nationalist organs accuse the government of provoking bloodshed by unjustifiable arrests. The Gaulois reproaches the cabinet for not having taken measures to prevent the excesses. The radical revisionist and republican papers insist on the necessity of more firmness on the part of the ministry and declare that the ministers must defend the republic against secret machinations and attempts at an uprising. The radical press protests against the disorders and hopes that the police will prevent a recurrence of them.

## TO ATTEND EVANSVILLE FAIR

Governor Scofield and Atty. Gen. Hicks Will Be There.

In addition to the presence of Governor Scofield, the attorney general, Mr. Hicks has consented to be present at the Evansville fair Thursday, September 7, and address the people taking for his subject, "Watchman What of the Day," in answer to W. J. Bryan's address at Monona Lake Assembly July 31, who spoke upon the subject "Watchman what of the Night." Mr. Hicks is one of the best speakers in the state, an able lawyer and a fine reasoner. He will no doubt present the great national question in a manner interesting to all.

Mr. Hicks recently addressed the following letter to H. L. Austin of Evansville:

"I am in receipt of your recent letter, and in reply will say I hope to be able to comply with your request. I am, however, obliged to be away in the northern part of our state on business for the state, which I can not postpone, but I will try to finish up so as to be present at the time you designate on Thursday, and to talk on the subject as designated by you in your letter."

Many Miners Lost Their Lives.

Santa Barbara, Cal., Aug. 22.—Ex-Supervisor W. Alston Hayne, who with a party of Santa Barbara people has been in the Kozubue sound region all winter, has written very discouraging news home. His letter, dated July 21, on the arctic circle, 500 miles inland from Kozubue sound, gives the names of forty-five minnes who entered that region and perished there. This does not include thirty-six who were drowned when the Jane Gray was lost. Neither does it include the last reported deaths from drowning of the men who left Hotham inlet for Cape Nome. The Indians have reported the boats lost and the men drowned.

## A WAR WITH BOERS NOW A CERTAINTY

BRITISH OFFICIALS CONFIDENT OF A CONFLICT.

O. Kruger's Answer Has Finally Been Received—The Document Construed As a Defiance to Great Britain—Chamberlain May Bring On Conflict Without Delay.

London, Aug. 22.—All England is talking war. Even the man in the street who knows nothing of what is going on behind the scenes is confident that an appeal to arms is now the only solution left for the Transvaal problem, which has reached an ugly stage.

President Kruger, it is admitted in official circles, has rejected the proposition of Mr. Chamberlain, and this can mean only a fight or the backing down of the Afrikaners.

That the Boers will yield all is not believed, and this idea is strengthened by the feverish preparations which both sides have been making for hostilities within the last month.

The colonial office has grown weary of the long drawn out discussion and will waste no more time. As soon as possible Mr. Chamberlain will bring matters to a crisis.

There is not the slightest doubt that the officials now believe that war is the only way to settle the controversy. They would far rather have had a curt, defiant reply than the temporizing answer which the Boer president has sent. With the former Great Britain would have plain grounds for a quick commencement of hostilities. Under the circumstances which it is now believed exist aggressive action needs considerable explanation to justify it in the eyes of the world and the British minority, which still declares that war would be an outrage.

However, if Mr. Chamberlain has his way it is believed that President Kruger's counter proposals will meet with scant attention, and unless the Boers completely back down, which is not likely, the crisis will quickly develop into war.

Cape Dutch to Aid Kruger.

Cape Town, Aug. 22.—Sunday was observed throughout the Orange Free State and Cape Colony with humiliation, prayer and sermons advocating a peaceful solution of the crisis. Mr. Snydler, a leading Dutch reformer, here, referred to the close ties uniting the Cape Dutch to those of the Transvaal, which, he added, were members of the great Afrikaner family. If war was declared, he said, Great Britain would commit a "heinous crime before God and man, resulting in civil war in Cape Colony."

Divine Help Is Asked.

Berlin, Aug. 22.—The Neuste Nachrichten publishes the following dispatch from Pretoria: "President Kruger a few days ago personally conducted a church service prior to holding an official reception. In the course of the ceremony he prayed that if war were unavoidable, God might find right and truth on the side of the Afrikaners."

## EPWORTH LEAGUE CONVENTION

Final Session Held At Beloit Sunday Evening.

The Beloit Daily News gives the following account of the closing of the Epworth League convention, which ended Sunday evening:

"The eleventh annual convention of the Janesville district of the Epworth League came to a close last evening. Many of the delegates returned to their homes Saturday and the remainder departed this morning. All expressed themselves as greatly pleased with the convention and much benefited by it. It is pronounced one of the most successful ever held in this district."

"The convention closed with a good experience meeting last evening under the inspiring leadership of Mrs. Jennie Caldwell. This followed an able sermon by Rev. W. W. Woodside of Janesville on the text 'Give me of this water.' All the services yesterday were well attended, and cool weather encouraging more to be present. A large delegation came down from Janesville, Saturday evening to attend. It is estimated that the total attendance at all the sessions reached 300."

"The greater part of the credit for the success of the convention is due Dr. T. De Witt Peake, pastor of the Methodist church of this city. Frank J. Short, was chosen president of the convention, but was unable on account of his sister's illness, to attend, and all the duties of his office devolved upon Dr. Peake. This means that practically all the details of reception and entertainment of the delegates were in his hands, and it was through his energy, tact and executive ability that things went so smoothly. Of course, he was also assisted by the young people of his church, but he directed all their efforts."

Bond's "Beefers," the Milton second nine, played horse with a team of Janesville players Friday afternoon, winning by a score of 25 to 3. The visitors were badly outclassed and the contest was devoid of interest to the spectators, being too much like the game that the Milton team had with the Y. M. C. A. nine early in the season. ## SPEAK OUT

### The Search Light of Publicity Is Pleasing Janesville People

Publicity is what the people want. Let the people speak on the subject. There has been too much claim, to little proof.

Claims made by strangers is not proof.

There is only one kind of proof for a Janesville citizen.

That is the experience of people we know.

When friends and neighbors endorse.

Make public statement of their case. There can be no question about such evidence.

This is the convincing proof we have.

Which backs every box of Doan's Kidney Pills:

No other kidney pills, no other kidney remedy.

Can produce such proof.

Here is one case of the many we have:

Mr. E. Dillenback, of 126 Milton Ave. retired farmer, says: "My wife was troubled with kidney complaint for four or five years, and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged, and the doctors who treated her said that those organs caused the trouble. As she did not get any better we thought Doan's Kidney Pills might give her relief and procuring them at the Peoples drug store, I had her use the remedy. It did for her all that could be expected and did her a great deal of good. We can recommend Doan's Kidney Pills and you can use our names as saying what has been stated above."

## MANY SOCIAL EVENTS AT FULTON

Young People Pleasantly Entertained At a Cobweb Party.

Fulton, Aug. 22—A company of young people were entertained by Mr. Williams Tuesday evening. A very pleasant time was enjoyed by all. Friday evening the boys choir, the girls singing club and Junior Endeavor society were invited to a cob web party at Edward Saxby's. Games were played and ice cream and cake were served. All united in voting the occasion a most happy one. The Sunday school picnic at Becker's bridge was well attended by the young people. Two straw loads of little people were driven over by Messrs. Wallin and Sayre and all regretted that Sunday School picnics come but once a year. Miss Florence Palmer, of Janesville, has been the guest of Miss Mabel Lee the past week.

A goodly number of our town people attended Ringling's circus and pronounced it good. Mrs. Brown has been on the sick list.

Mrs. Grace Fessenden, daughter Maud, and son Stanley, have been visiting at Ed Jessup's. Miss Eva Jessup of Chicago, is spending a few weeks with her aunt, Mrs. Spafford Allen. John Hill of Janesville, was in our village this week. Herbert Murwin returned from Chicago last Friday night, prostrated by a threatened attack of typhoid pneumonia, in consequence of which the church social, which was to have been held at Mr. Murwin's, was transferred to the church and school grounds. A short program was rendered and a social time enjoyed. Stewart Murwin has recovered from the attack of scarlatina. An ice cream and cake social will be held on the school grounds Tuesday for the benefit of the church. Maud and Harriet Lee entertained some of their young lady friends at tea, Saturday evening. Mr. and Mrs. J. W. Nash of Janesville, Mr. and Mrs. Behrendt and daughters of Chicago, spent the day at H. W. Lee's, Saturday. The home of Mr. and Mrs. D. F. Sayre, Jr., is gladdened by the welcome presence of a baby boy, born Sunday, Aug. 20. Mr. Merrill preached Sunday morning in the interests of "Homeless Children." Mr. and Mrs. Mueschl are the happy possessors of a baby girl.

Emerald Grove.

Emerald Grove, 21—Mrs. Will Davis and sons returned to Maplewood, Ill., Saturday. Mrs. Dennis is much better than she was last week. Work has commenced on the new creamery which will be built by Mr. Fitch in our village. Almost everyone in this vicinity visited the circus in Janesville, Thursday. All report a good time. Rosa Locke is entertaining a young lady friend from Janesville. Jennie McArthur visited Clinton, Wis., and Roscoe, Ill., last week. John Davis does not improve as his friends wish for. Dr. Loomis was called to attend Mrs. Arthur Jones, who was taken suddenly ill, Friday. The Ladies' Auxiliary gave Mrs. Butler and Nettle a surprise Tuesday. Refreshments were served. Friday they departed for their home in Janesville. Their many friends regret their departure. Thursday afternoon of this week the Ladies Auxiliary will meet with Mrs. Dennis. Mrs. J. A. McArthur and children are visiting Chicago friends. Miss Bertha Proctor of Janesville, called on friends here on a bicycle tour to Delavan. Mr. and Mrs. W. Sherman and children of Janesville, visited Mrs. Sherman's sister, Mrs. C. Wright, over Sunday. Rev. C. Dennis preached at Fairfield, Sabbath p. m.

North Johnstown.

North Johnstown, Aug. 22—Mrs. Thomas Rice is not gaining as fast as her friends would wish. Mrs. Helen Lucas and her two boys of Maquoketa, Iowa, are visiting at the home of her sister, Mrs. George Shumway. Grand-ma 'Booker, who has been sick for a week past with malarial fever, is better. Edwin Gray of Evansville, came out on his wheel Sunday morning, and returned Monday. Ralph Adair and Miss May Thorpe of Milton Junction, attended the Christian Endeavor meeting here, Sunday evening. Mr. and Mrs. Albert Webb and daughter May of Evansville, who have been visiting in this vicinity for a week past, were guests at H. R. Osborn's, Friday and Saturday. H. Tooker has had his barn reshingled.

## BOWER CITY EVENTS OF LAST EVENING

### THEATRICAL SEASON OPENED AT MYERS GRAND.

Small Audience Greeted Opening Performance—Due to Counter Attractions and Warm Weather—Those Who Heard Charles E. Phipps Felt Well Repaid—Minstrels Friday Night

"The Heart of Chicago," opening the theatrical season at the Myers Grand last night did not bring forth the sign: "Standing Room Only."

Perhaps it was due to the fact that there still lingers in the atmosphere a feeling of ice cream soda and fans, boat excursions and golf meets, rather than one of plays and opera houses, that Manager P. L. Myers did not find an El Dorado in last night's performance.

However, the theatre was very comfortable, for the wide-awake manager had looked out for that part of it. He has electric fans in all parts of the house working like bees.

Considering that it was only the second night on the road for the company and that they necessarily wanted a little more familiarity with the production, the performance was not bad. Of course Joe Jefferson wasn't there or Henry Irving and the heroine's part was not filled by Sarah Bernhardt or Olga Nethersole, but still Lincoln J. Carter's company played "The Heart of Chicago" and the result could have been worse.

The spectacular effects were good, in fact they were grand. The scene in the second act, of the roof of the Masonic Temple, was especially well managed, as was also the locomotive scene. The representation of the ruins after the fire, at the close of the first act, was a clever piece of scenic effect, too.

A number of specialties were introduced into the performance, some of which were quite entertaining. Helen Dale, Robert Athol and Lawrence Mack sang, and Maud Sutton sang and danced.

In the play itself Ella Wilson did the honors of the heroine. Miss Helen Dale took the part of a French maid and did it very well.

Lawrence Mack as the Irishman was good, and so was Allen Hampton as the bum. Robert Anthon as a boy of the streets was also an attraction.

Russell Graham did the part of the hero, and John Melton was in the role of villain.

Another Small Audience

The musical entertainment given by Charles E. Phipps, under the auspices of the Y. M. C. A., at their hall last night, was not an entire success so far as the attendance was concerned. Perhaps it was due to the opening of the opera house that the audience, which listened to Mr. Phipps' selections numbered less than forty.

Those who were present, however, felt highly repaid for their investment. Mr. Phipps charmed them for a little more than an hour with instrumental selections on the mandolin and guitar, and with imitations on the violin, accompanied by a difficult rendition on one string. He also played the piano and gave several highly amusing vocal imitations.

Mr. Phipps' next appearance will be at Clinton tonight.

Scott's Minstrel Carnival.

"Oliver Scott's Big Minstrel Carnival" is the title of the next attraction that will appear in this city. The company is composed of forty genuine negroes. As a musical organization, it is said to be very superior. A large brass band and a very fine orchestra lend additional charm to their entertainments. There are a number of very fetching specialties, and the wardrobe and scenery are said to surpass anything of the kind ever carried by a colored minstrel company. At Myers' Grand next Friday evening, August 25.

after you have concluded that you ought not to drink coffee. It is not a medicine, but doctors order it because it is healthful, invigorating and appetizing. It is made from pure grain and has that rich, seal brown color and taste like the finest grades of coffee and costs about 4¢ as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink, 15¢ and 25¢.

## GAME WARDEN FISHER HERE

### Enroute to His Home at Broadhead From Lake Geneva.

Special Game Warden S. D. Fisher of Broadhead, was in the city yesterday. He had just returned from Lake Geneva, where he has been laying for the prairie chicken hunters for the past week. He found the violators of the law in that line rather scarce, however, as the weather has been so dry lately that the birds could not be hunted successfully with dogs.

Incidentally he ran across a resident of Lake Geneva named John Henry, who was maintaining a two hundred and fifty foot set line in Lake Como, near that city. Fisher destroyed the line, arrested the illegal fisher and saw him convicted and sentenced to thirty days in jail for the offense.

The game wardens are unusually active this year and are becoming terrors to the violators of the law. They bob up like the evil spirit in the spectacular drama and gather in that dispirited microbe, the illegal hunter and fisherman, without ceremony. They are doing good work and deserve and receive the commendation of every self-respecting sportsman.

## 4,000 DELEGATES EXPECTED

Good Roads Convention the Largest Gathering of Farmers Ever Held

Thus far 1,720 delegates have been appointed to the Good Roads convention to be held at Milwaukee, representing 29 counties. Additional lists of delegates are being received daily by the secretary, and there is every prospect that from 3,500 to 4,000 delegates will be present. That would make the Good Roads convention the largest gathering of farmers ever held in Wisconsin.

The Austin & Western Co. of Chicago, have offered to furnish all necessary road graders, rock crushers, screens and road rollers for building the proposed object lesson road. They will arrange for an extensive exhibit of their machinery at the state fair grounds. The Fleming Manufacturing Co., of Fort Wayne, Ind., will make a similar exhibit. A special railroad rate of one cent per mile has been arranged for the benefit of delegates.

## COMPLIMENT DR. WHITING

Madison Democrat Speaks Highly of Local Physician.

Major and Regimental Surgeon Joseph B. Whiting, Jr., of this city, received a well deserved compliment from the Madison Democrat, in a write-up on the return of the Madison company from the annual encampment of the First regiment at Camp MacArthur. The article says:

"Company G came down on a special, and was accompanied by Adjutant H. C. Baker and Regimental Surgeon Joe Whiting. The latter's home is in Janesville, but he stopped off to spend the night here. He was with the 7th army corps in Cuba last summer, and is considered one of the best army surgeons in the country."

## SOME WOMEN'S OCCUPATIONS.

Millionaire's Daughter a School Inspector—College Bred Girl Who Runs a Sawmill.

BY ELIZABETH LYON.

Miss Elsie Clews, Ph. D., the daughter of the eminent financier, was lately appointed inspector of the public schools of New York. She is known to her father's intimate associates as "My Girl Elsie." Mr. Clews has the most exalted admiration for his talented daughter, and when he speaks of "My Girl Elsie" there is pride in his voice and a tender light in his eyes. He has been in complete sympathy with her ambition to shape for herself a distinctive career and has always encouraged her in her studies. To the public Mr. Clews has no desire to land his daughter's deeds, but to his friends he speaks freely of his delight in her achievements. To one of these the other day he said:

"My Girl Elsie is a treasure. She combines the most lovable of womanly traits with the level head of a business man."

"Look how she worked to get a college education. Many a girl, less determined, would have been discouraged."

MISS ELSIE CLEWS.

and given the thing up. But that is not my girl. She had promised her mother that she would not neglect her social duties if she adopted a college career. It was hard work to combine the two, but she succeeded. How she did it has always been a wonder.

"Her class record at Barnard shows that she did good work, and yet she kept up a round of society diversions. Furthermore, she left town before the college closed and would not return until some time after the fall term had opened, so that she had not only her regular work to keep up, but conditions to remove."

"She will enter upon her duties as inspector with an equal amount of determination. Her social duties are heavy, but Elsie is exceptional, to my mind, and she will come through all right."

Miss Clews is one of the most charming and popular young women in New York society. Her face is sweet and vivacious, she has soft brown hair and beautiful mouth and teeth. She is rather above middle height, but with a graceful carriage, which adds to her attractions.

During the present season she is one of the reigning belles in Newport. Her days are filled in with dinners, balls, drives and the thousand and one dissipation which make the society girl a slave. She returns to New York in September to take up her duties as school inspector. The dinners and balls will continue, with a change of scene, but the career of a society girl will be balanced by the arduous duties of inspector.

Daily rounds of duty will be necessary. Every nook and corner of the big school buildings must be inspected thoroughly, so that no bad sanitation may jeopardize the hundreds of young lives within the walls. Reports must be filed. Committee meetings and lectures claim a share of attention, besides the usual duties incident to the position. She receives no compensation for her services, Miss Clews having refused to accept the salary which belongs to the position.

**Sits in a University Chair.**  
Miss Lucille Eaves was recently elected to a position on the faculty of the Leland Stanford, Jr., university. Miss Eaves looks little more than a girl, yet she is to succeed Mrs. Mary Sheldon Barnes, who is one of the best known women of the United States. Mrs. Barnes' reputation is international, her historical works having become textbooks in schools and colleges.

Miss Eaves' chair is that of pedagogical history. In California every teacher in the public schools must take pedagogical training in her own special line, whether it be history, geography or languages. Without that training even graduates from Stanford university and the University of California must take an examination in methods.

Miss Eaves' success is the greater from the fact that the system she teaches she has herself evolved. She believes in teaching history from the sociological standpoint, not only in colleges, but in high schools and through all the grades of the public schools. Under this system she takes up such branches as "The Nature and Formation of Social Institutions," "Characteristics of Personal Leadership in So-

ciety," "The Influence of Crowds on History."

Miss Eaves has advanced ideas on social and educational questions and expresses them with clearness and force. She developed these ideas while teaching in Peoria and later in Portland, Or., and for three years at the Indian school at the Nez Perces reservation in Idaho.

A course at Stanford in history, sociology and ethics gave her ideas form. In 1894 she graduated from Stanford and immediately commenced teaching in San Diego. For four years she has been giving a practical test of her theory. Her success is attested by her election to a professorship at Stanford.

Miss Eaves has taken a special post-graduate course in history and economics at the University of Chicago, receiving the degree of doctor of philosophy.

Miss Eaves is an enthusiast upon athletics for women. She played in the first basketball game of the Stanford team and excels also in tennis and rowing. She also believes in the advancement of women and advocates woman suffrage.

**This Girl Runs a Sawmill.**

Miss Amelia Judson successfully conducts an extensive lumbering business in Arizona. Some years ago her brother, Andrew B. Judson, left St. Louis and went to northern Arizona (having inherited a considerable fortune from an uncle at his birthplace, Gulton, Mo.), convinced that there was money in developing the sugar pine forests in Coconino county, between Williams, A. T., and the Grand canyon of the Colorado river. Inside of a year he invested \$38,000 in timber lands and built a sawmill and established the Judson lumber camp, 22 miles northeast of Williams. He made a specialty of timber suitable for boxes for the California fruit trade and from the start was successful.

In 1898 young Judson's mother and sister came to visit him. Miss Amelia Judson had just finished a course at Cornell university and expected, after leaving Arizona, to go to Paris to study art.

But misfortune prevented. Only a week before she and her mother had intended to return to St. Louis Andrew Judson became suddenly ill with typhoid fever and died. That was last October.

There was but one thing to do. Three important contracts for lumber and box material were in course of fulfillment when the ambitious young lumberman died. Both mother and daughter realized that thousands of dollars of their money was tied up in the lumber camp and that the only way to save it, avoiding the sacrifice of a forced sale, was to keep the plant in operation.

And so it was that college bred Amelia Judson became a sawmillier in the heart of the Bill Williams mountains of Arizona.

She went to the office and took charge. The rough men who saw her

MISS AMELIA JUDSON.

wondered at her temerity and hardihood. Then they admired her pluck and determined to help her in every way possible. She went into the woods with the logging teams and learned every detail of the work of converting a standing tree into lumber or fruit boxes. She got out her brother's contracts in time, took further orders and prospered at every turn.

**Cleaning Piano Keys.**

An effective way of cleansing and whitening the keys of a piano is by using clear alcohol, applied with a piece of soft cloth and rubbed dry with a fresh piece.

When the polish has become dull, an application of piano polish, using a soft cloth and afterward rubbing briskly with cloths, will restore its brightness.

For dulled pedals a mixture of fine wood ashes, sifted through muslin, and a little kerosene is rubbed on the pedals and then polished with a woolen cloth. Ammonia and whiting are also good, using dandelion or whiting to rub on the mixture and a fresh piece for polishing.

Lift the keys very gently when wiping them and never allow pounding upon this beautiful and sensitive musical instrument.

Under command of Lieutenant De Long the Jeannette sailed north from San Francisco in 1879. ## WITH THE HUMORIST.

"Didn't it surprise you when Sir Archibald Jume-Bubb said to his constituents at the close of his speech the other evening, 'Thankful for past favors, I respectfully solicit a continuance of the same?'" asked the casual acquaintance.  
"Not at all," replied the theosophist. "I have always believed Sir Archibald to be the reincarnation of some country milliner."—Chicago Tribune.  
"Pooh!" he said scornfully, speaking of his rival, "one of his ancestors used to be in the employ of mine."  
"Yes," sweetly replied the object of the adoration of both. "I have often heard him say he wondered whether you had sufficient interest in your ancestor's honor to pay the back wages still due as a result of that service."—Chicago Post.  
"Yes," declared the political speaker, "this city fairly teems with crime."  
"Oh," said a little old man down near the front, "that's nothing to worry about. We're going to drive the horses out of business before long."—Chicago Daily News.  
"No, Ellen, I can't tack down any carpets. The doctor said all my recreation must consist of open-air sports."  
"All right, William; there are three carpets out on the line which you care beat."—Chicago Record.

## PERSONALS.

Congressman Bingham of Pennsylvania is reported the handsomest man in congress.  
Oom Paul Kruger understands English, but always insists upon employing an interpreter.  
Mrs. Asquith, who was Margot Tennant, has excited comment in England by playing golf without a hat.  
Benjamin Ide Wheeler as president of California university will get \$10,000 a year. President Eliot of Harvard university has to work two years for that.  
The Rev. T. L. Flood, the retiring editor of the Chautauquan, says: "The hardest thing I had to learn as an editor was to say 'No' in a kind, wholehearted, firm way."  
Secretary of State John Hay has secured a renewal of the copyright of his "Pike County Ballads," in order to prevent an issue in popular form by unauthorized publishers.  
Colonel David B. Henderson was a student at the Upper Iowa university, at Fayette, and left that school in 1861 to go to war at the head of a company of Fayette county boys.

## HIGH LIGHTS.

We talk about the flights of fancy, but fancy doesn't fly—it hops.  
Freedom of thought doesn't injure the world half as much as freedom of tongue.  
Strawberries may be too few to the quart, but they are strawberries just the same.  
People who are too tired to be agreeable ought to be too tired to be disagreeable.  
The woman who wears No. 4s always likes to tell that when she was May queen she wore No. 2s.  
We don't relish advice because the people who offer it always have so many more faults than we have.  
The people who applaud brevity are often those who want a chance to say a good deal themselves.  
The average man thinks the meanest thing he can say of a woman is that he is glad he isn't married to her.—Chicago Record.

## Story of an English Artist.

The English artist, Val Princep, is an enthusiastic fisherman, and often takes his friends out with him on salt water. A short time ago he went out to fish in Fenvensey bay with a young friend of 21s, who was an indifferent sailor. For a time all went well, but presently the tyro felt qualms of the approaching mal-demer. Struggle as bravely as he did against it, he could not overcome the feeling of nausea, and at last he was conquered. In fact, so severe was the attack that he became frantic. Presently he gasped, "For goodness' sake, fetch a cab and take me home!" At the time the boat was three miles from the shore.

## Norway Boys Cannot Smoke.

A law in Norway prohibits the sale of tobacco to any boy under 16 years of age without a signed order from an adult relative or employer. Even tourists who offer cigarettes to boys render themselves liable to prosecution. The police are instructed to confiscate the pipes, cigars and cigarettes of lads who smoke in the public streets. A fine for the offense of smoking is also imposed, which may be anywhere between 50 cents and \$25.

## HATS OF OUR ANCESTORS.

Changes That Have Taken Place in Manufacturing Headgear.  
"Speaking of the hat business," said a veteran of the business to the local historian, "most wonderful changes have taken place since 1850. In olden times soft felt and derby hats were not known, and it was as late as 1843 when silk dress hats were first introduced in this country, this being a French invention, and all silk plush used for hats in the world was, up to this time, made in France. When Kossuth came to America he introduced the soft felt hats, wearing one himself. It did not take American hatmakers long to take up the idea, and in less than one year old and young Americans covered their heads with Kossuth hats. They were in shape nearly the same as tourist hats now, only being trimmed up with a nice, long ostrich plume. Along about 1858 an English tourist came along with the derby hat, and in a very few years they became the general headgear in the country, and up to the present date the demand for soft hats and derby hats is nearly evenly divided. In those days all the best class of soft hats were imported from France, and stiff derbies from England. This, however, has taken a material change, as American hats are now sold in all parts of the globe, and it is a known fact that we produce the most tasty and best hats made. Before the arrival of Kossuth and the English tourist, however, the Americans did not go bareheaded, but contented themselves with napped otter and napped beaver hats, for the more expensive, and the so-called scratch-up or brush hats for the cheaper. Brush or scratch-up derive their name from the fact that nap was raised on them by means of a stiff brush constructed of whalebones.

## INSECTS TO IMPROVE FIGS.

They Have Been Introduced in California After Many Trials.

The larger part of our fig supply comes from Asia Minor, the Spanish peninsula and the south of France. Those of Asiatic Turkey are considered the best. Certain insects of the genera blastophaga and scytophaga which frequent the wild fig enter the minute orifice of the receptacle, apparently to deposit their eggs, conveying thus the pollen more completely to the stigmas, thus insuring the fertilization and consequent ripening of the fruit. By some the nature of the process has been questioned and the better maturation of the fruit attributed merely to the stimulus given by the puncture of the insect, as in the case of the apple, but the arrangement of the unisexual flowers in the fig renders the first theory most probable. A year ago the department of agriculture began a series of experiments on the introduction of the insect which fertilizes the Smyrna fig; an agent was sent to Europe to obtain cuttings of all varieties of the wild fig and to send over the fruit containing the live insect. By good fortune some of the insects succeeded in penetrating the closed flowers of the Capri figs and laid their eggs and really established themselves in California. It is now believed that the insects will continue to breed and that in the near future a fig will be placed upon the market which possesses the same superior flavor as that which has given the imported Smyrna fig its present popularity.

## Precious Stone Industry.

A report on the precious stone industry of the United States in the year 1898 has been issued by the Geological Survey. Some of its salient features are: The finding of rock crystal at Mokelumne Hill, Cal., of such purity and size as to almost rival the Japanese, and the successful cutting of these in the United States up to over seven inches in diameter; the increased output of the Fergus county, Mont., sapphire mines and the yielding of fine blue gems up to two carats each, and the discovery of a new locality where the stones are more varied in color than those of any known locality; the continued output of the new Mexican turquoise mines and the opening up of mines in Nevada; the finding of magnificent green and other colored tourmalines at Paris Hill, Me., and Madam Neck, Conn.; the increased sale of Australian opals; greater use of all the fancy or semi-precious stones; the greater importation of uncut diamonds, and the increase of the diamond cutting industry in the United States; the unprecedented increase in the importation of cut diamonds and the revival of the precious stone industry in the United States. The value of all the precious stones found in the United States in 1898 was \$160,920, as compared with \$136,675 in 1897.

## A Sensational Incident.

During the performance of the drama "When London Sleeps," at the Broadway theater, Deptford, England, an unrehearsed incident of a sensational character was witnessed by the audience. When the performance had reached the stage at which the villain attempts to strangle the girl whom he has wronged and drown the child, someone in the gallery, apparently carried away by the situation, threw a knife at him as he stood in the center of the stage. The knife missed its aim, but struck the musical director in the back of the head, who staggered from his seat in the orchestra, and proceeded underneath the stage where his injuries were attended to. The sensational incident passed unnoticed by the actors, but was noticed by the audience.

## Worse Than Automobile.

The Germans call their new electric cabs "automobiletaxameterdroschken." By the time they get through calling them the cabs are generally out of sight.—Boston Globe.

## HIGH LIGHTS.

People who are down on gossip don't often say so until after they have heard the gossip.  
A man who never talks may be a fool, but he has sense enough to conceal his dimensions.  
A rent in your clothes may be the accident of a moment, but a patch looks like premeditated poverty.  
Some people get no sympathy when they are sick because they complain so much while they are well.  
Some people are so well aware of their own virtues that they overlook those of the rest of humanity.  
A middle-aged woman always picks out wall paper which reminds her of somebody's old garb down in the country.—Chicago Record.

## WITH THE HUMORIST.

"Is your office boy systematic?"  
"He hasn't any system about his work, but he is abnormally systematic about his holidays."—Chicago Record.  
"It makes my blood boil!" he exclaimed.  
"That's good," she replied.  
"Good!" he cried.  
"Certainly," she answered. "Boiling is recommended to remove impurities in all liquids."—Chicago Post.  
"My dear," said Dawson the other evening, looking up from his paper, "here is an article from the pen of an eminent physician, in which he says sleeping in the daytime is very injurious to the health."  
"Well, that's just like a man," answered Mrs. Dawson. "They are always trying to trump up some excuse for staying away from church."—Chicago Daily News.  
"Have you ever seen artificial coal?"  
"No; but I've seen artificial coal-bills."—Chicago Record.

## WEATHER WISDOM.

Human weather prophets often fall, but creatures lower in the scale are not often hoodwinked into a wrong opinion. The virtues of peacocks as weather prophets have long been sung. It was noticed recently at Warwick castle that for three days before a terrible storm the peacocks were very restless and clamorous.  
The green woodpecker is said to laugh his "Ya-ha-ha" in different, more liquid tones when rain is coming, and especially gifted persons claim his cry really changes to "rain, rain, rain."  
In Dorsetshire, England, they tell of storms by the flight of the rooks. When they are pitch-falling, or playing at tumbling, diving and wheeling in the air they say a storm is due.  
Seafowl are very clever in foretelling a storm. To a sailor bad weather means wind and to a landsman it means rain, but the screaming of the water-birds usually foretells a change of some sort for the worse in the prevailing weather.

## Motor Car Possibilities.

From the London Queen: The universal adoption of the motor car in England can only be a matter of time. Fifty miles on a motor does not exhaust you so much as fifteen behind horses. You can go down the steepest hill with safety, and ride uphill, which is the time when you want to ride most, without feeling that you ought to get out and walk to save the horses. There is little doubt that the next rage among our aristocracy will be the possession of motor cars.

## Bible Printed on Asses' Skin.

The most costly book in the Royal Library at Stockholm is a Bible. It is said that 160 asses' skins were used for its parchment leaves. There are 309 pages of writing and each page falls but one inch short of being a yard in length. The covers are solid planks four inches thick.

If the Children were taught in school that good health is impossible with bad teeth, there would be fewer toothaches, fewer sick people and fewer large dental bills. Everything has a beginning. ## Results are Showing

That Cushionet Turns do not rip, and that they will also outwear any other Shoes for walking on hard pavements.

## The Reasons

For their not ripping are in our improved methods (patents applied for) of channeling the sole and the way of sewing and protection of the stitch.

## They Wear Longer

Because the very heavy soles of the finest leather will not wear through quickly to the channel as in ordinary turn Shoes, and being flexible they do not grind out as welt Shoes are liable to do.

## The Uppers Are Protected

And these Shoes hold their shape better on account of the heavy square close or extension edge soles. They are made over the latest style lasts. We carry them in all sizes and widths, button and lace. We have secured exclusive sale for Janesville. There are no other Shoes like Cushionet Turns and Ease Welts for comfort giving and wearing qualities. Ask to see them.

## BASE BALL FANS EXPECT TOO MUCH

### NOTES OF INTEREST ON THE NATIONAL GAME.

The Uncertainty Is One of the Most Interesting Features—If Every Effort Was Crowned With Success It Would Soon Grow Monotonous—The Local Nine.

After the smoke of last Friday's base ball battle had cleared away and the fans, cranks, scorers and reporters had checked up, it was found to be not such a nightmare after all. The consensus of opinion seemed to be that the Y. M. C. A. boys had by their previous good playing set the standard too high and the spectators were demanding too much for their money. The uncertainty of the game is one of its most interesting features and if the boys played perfectly all the time and won every game it would soon grow monotonous.

As it was, there was only one rank error in the game—McMasters' over throw to second.

By the rules of scoring, Brown was charged with an error, but if he had accomplished the play it would have been as brilliant as ever seen on any diamond. With a man on first, Diech made a perfect hunt towards third, just inside the foot line, and ordinarily good for a base hit, but Brown, in anticipation of the act, was clearly coming in, and as he picked the ball up, clean, Mr. yelled, "second." Brown whipping it over before recovering his balance, and it was just wide enough to lose the man. He had a sure thing at first, which was sufficient to expect on that kind of a hit. Sullivan's error was on a grounder over towards second, which bounded bad and hit him on the wrist. Knutz missed a hot thrown ball from Fisher, who had picked up a grounder but a short distance from first and was in somewhat of a hurry.

Fisher pitched a very creditable game under the circumstances. From want of practice he had poor control of his curves, which was sufficiently discouraging of itself, but when the crowd began hooting him, and calling for Adkins, it is a wonder he didn't go all to pieces. The two hits over the fence are what did the business, and they are liable to occur at any time on any pitcher, until the fence is moved back.

Where does Janesville come in?

The astute base ball editor of the Sentinel has interviewed Manager Mack and quotes: "He spoke in the highest terms of Adkins' pitching, and says the 'Belvit' twirler is fit for the Western League now." Again, Manager Mack says Heimerl is a coming pitcher and likes the work of Brown at third base, and the playing of Sullivan, of the same team, at short.

Heimerl is the Jefferson pitcher. Once more: "And he thinks Downs, of the Watertown, will make a fine fielder with more experience."

Two of our players highly complimented, but no mention made of Janesville.

In its barnstorming tour through the state Milwaukee defeated La Crosse 15 to 5; Watertown 8 to 3; Janesville 2 to 0; Sheboygan 8 to 7 and Jefferson 6 to 2. Our boys held them down to the lowest score and were the only ones shut out, but they were up against the hardest pitcher to hit.

The Indianapolis club, leaders in the Western League, played in Milwaukee Saturday, and with six hits (same number our boys made) scored five runs, but ten men went to bases on balls. Wonder how our fans would like that on the part of Fisher or Adkins.

Now the season is getting short we want two games a week here at home.

## STREET PAVING MAY BE GREATLY DELAYED

### STREET RAILWAY COMPANY IS RESPONSIBLE.

Unable to Secure the New Girder Iron—Placed Order For Rail Soon After Ordinance Was Adopted—Given Until September 15 to Make the Change.

The paving of Milwaukee street will be delayed later than the stipulated time on account of the inability of the street railway company to get their new girder rails.

Under the ordinance passed June 26, last, the company was required to replace the "T" rails on Milwaukee street with a rail known as the "Philadelphia" type. This rail has a flat surface provided with a groove in which the flange of the wheel runs.

The railway company objected to the use of it on the ground that it would be next to impossible to operate the cars on it, as in the summer it became filled with dirt and pebbles, and in the winter would be clogged by ice and snow. They said that the same rail was being used in Appleton and that it was continually causing trouble.

After looking into the matter, the council at its next meeting, amended the ordinance and ordered the company to put down the "girder" rail. This is a patented type, and is made by but two mills in the United States, one of which is the Pennsylvania Steel company, and the other a Loraine, Ohio, concern. The street railway company claim that they placed the order for the rails soon after the ordinance was drawn up, and state that they are in receipt of a letter from the manufacturers, in which they say that they cannot promise their orders and that they cannot promise a shipment at any definite time.

It is well known that the iron and steel business is demoralized, and that the demand far exceeds the supply. The council gave the company until Sept. 15, to change their rails and unless they see fit to grant an extension of time the owners may be subject to a fine of \$100 and the payment of a penalty of \$25 for each day after the above date that the old rails remain down. Under the circumstances, however, it is extremely improbable that they would be made to pay it as the street railway company has acted in good faith and are willing to make the change as soon as they can get the rails.

The work of paying the street is to be commenced September 18, and finished on or before November 15, and if the rails do not arrive in time, the work may have to be put off until next spring.

It is claimed by some that a special brick could be used next to the rails, but it would not be possible to make, as good a joint, and besides considerable confusion would ensue, as the assessment for the proposed pavement was based on specifications requiring the girder rail.

## BASEBALL REPORT.

Games Played Yesterday in the Two Leading Leagues.

Chicago opened its series with Pat Tebeau's tribe at St. Louis yesterday and made never a run. The locals accumulated two—both in the fourth—and the game was as good as over. Philadelphia and New York played a double-header. The first was won by the Giants and the second by the Quakers by the scantiest of margins. Cincinnati did Chicago a favor by defeating Pittsburgh, thus keeping the Pirates from becoming too dangerous. Brooklyn turned the tables at Boston, winning by two runs, and the Senators more than trounced Baltimore. The games:

Prussian Ministry Is Reported to Have Resigned.

Berlin, Aug. 22.—It is rumored that the emperor has received and accepted the resignations of the Prussian cabinet ministers, owing to the defeat of the canal bills.

The Berlin newspapers recognize that the rejection of the government's canal scheme marks an epoch in political history. The socialists are applauding the firmness of the agrarian junkers in upholding the sacred principles of constitutional right.

There is much talk of a dissolution of the Prussian diet, but this is not likely to occur until the upper house has approved the new code of laws for 1900.

## PARTY TO STAND BY 16 TO 1.

Statement Made by Bryan in an Interview at Lincoln, Neb.

Lincoln, Neb., Aug. 22.—W. J. Bryan was interviewed here Monday. Asked these questions: "Why would it not be wiser to stand upon a simple declaration in favor of the remonetization of silver, leaving the ratio to be determined by congress? Would that not be more expedient? Would it not instantly reunite the democracy?" Mr. Bryan hesitated not a moment. His voice rang out with earnestness as he said:

"No, you cannot decide public questions upon the basis of expediency. The rule with the party is the same as with the individual, because a party is only an aggregation of individuals. The question is not what is expedient, but what is right. That which is right will ultimately triumph, and that which is wrong will ultimately fail."

"As a member of the party I have said and still say that an abandonment of the ratio of 16 to 1 would be equivalent to an abandonment of the money question, because no free-coinage law can be adopted until a ratio is agreed upon, and since the 16-to-1 ratio has been agreed upon, an abandonment of it would mean either that the ratio is wrong or that, although it is right, we are afraid to advocate it. If the ratio is wrong we ought to select another ratio and stand upon it. I do not believe the ratio to be wrong; neither is the ratio believed to be wrong by those who made the fight to insert it in the democratic platform."

"To leave out all mention of the ratio would be to return to the ambiguous and deceptive phraseology which characterized the financial platforms of both the democratic and republican parties for several campaigns."

"The men who oppose the ratio of 16 to 1 have no other ratio to offer. Their plan is to invite the people to have confidence in the party without the party taking the people into its confidence."

## THE NAVY'S TURKEY.

HOW THE JACKIES ENJOY THEIR DAY OF THANKS.

How They "Gut" the Officers During the Novel Annual Parade and Review Aboard Ship—Chasing the Greased Pig.

[Copyright, 1898, by F. A. Verdu.]

IT IS undoubtedly true that Jacky, and that means the sailorman of Uncle Sam's navy, is more thankful this year than ever before—he is thankful he's alive. Spanish shells have come his way by thousands, but he still lives. Jacky is fond of a holiday, and one of the things that go to complete a perfectly spent holiday with Jacky is a good "square meal" with "vittles" of a different kind than the commissary supplies. "Soft bread and shore food" are the main parts of this repast, and there must be lots of them. While Jacky enjoys every holiday that comes along the one in which he finds the most pleasure is Thanksgiving day. This is especially true when the ships are in some home port or in the navy yard. Then Jacky is sure he can have whatever he wishes for.

The regular routine work of the ships as far as possible is suspended for the day, and after "quarters" the men are allowed the freedom of the ship. The mess quarters are decorated with the ensigns and signal flags, while the long rows of tables are abundantly supplied with all the delicacies of the season from the turkey which the men call "the buzzard," with its cranberry sauce and other garnishings, to the choicest fruits the market affords. Usually an outside cook is called in to prepare the meal, for every man in the ship is going to enjoy the holiday, and no one works.

There are other things that occupy Jacky's mind besides the "grub," as he calls it, for the day is long, and there are lots of things that can be done. As soon as "quarters" are over the amusement usually begins with a parade and review, at which all the officers of the ship are asked to be present. It is not a dress parade, where the men have to wear their regulation uniforms, nor do the tactics as prescribed by the government carry any weight. The uniforms and tactics are of the men's own get up, and each participant does about as he likes when the commands are given. The uniforms are remarkable, there being no two alike. Every color in the rainbow goes to make up some part of the grotesque costumes worn by the men. This is one opportunity the men have of showing their like or dislike for some of the officers in a mild way. During the drill, which lasts about half an hour, the commands are given to mimic some of the officers, while the men themselves perform all kinds of queer antics.

After the drill a few athletic sports are indulged in before the little red pennant is run up to the signal arm and "mess gear" is sounded. They find a desirable spot for the purpose. Then football, baseball and other games are enjoyed. Jacky's specialty is "pig chasing," and, without a good healthy porker, well greased, to give him a run about the grounds, the day would be lost. Often the pig is too lively for the boys, and many of them get a good tumble before he is finally captured.

Suddenly the familiar sound of the bugle comes over the water to the place where the men have been enjoying themselves. They do not wait for the second call. One seems enough, and they drop everything they have been

THE JACKIES' THANKSGIVING REVIEW.

doing and start for the ship. "Mess gear" has sounded, and the little red pennant has been "bent on" the signal arm. Before the men sit down to their repast the officers are invited in to look at tables. Steaming turkeys, sucking pigs and different kinds of fish hands, some garnished are placed on them. They are surrounded with many of the delicacies to be found on the tables of the well to do, and on this occasion Jacky feels that he is rich and must have the best the markets offer. Speeches are made and the officers are toasted. Two and sometimes three hours are passed at the table, and Jacky and his friends enjoy every minute of the time. The afternoon is spent on shore either in the fields playing games or in the library, where such games as cards, checkers and chess are indulged in. When night comes and the bugle sounds "Stand by your hammocks," Jacky is ready. He has enjoyed every minute of the day and is satisfied to "crawl in" and dream of the things the next Thanksgiving day will have in store for him.

## MINING TOWN DESTROYED.

Fire Wipes Out the Business Portion of Victor, Colo.

LOSS PLACED AT \$2,500,000.

Entire Blocks, Built of Pine Timber, Burn Like Paper—Dynamite Freely Used in the Effort to Stay the Progress of the Flames.

Cripple Creek, Colo., Aug. 22.—Fire has destroyed the business portion of the city of Victor, causing a loss estimated at \$2,500,000. Beginning shortly after noon Monday the fire raged until evening, consuming everything in its way. It had its origin, it is thought, in the Merchants' cafe, adjoining the Bank of Victor, Third street and Victor avenue. A strong wind from the south fanned the flames, and in a few minutes all the surrounding houses were afire.

Help was summoned from Cripple Creek, but the town had been built in the early days of the camp and was of pine timber for the most part, and burned like paper. Efforts were made to stop the progress of the flames by blowing up buildings in their path, and all afternoon the hills roared with the explosions, but the effort was in vain.

The fire claimed the Bank of Victor, the postoffice, on the corner opposite, crossed Third street and followed the row of blocks between Third and Fourth streets to the north, taking the Victor Banking company, the Western Union Telegraph company's office, the office of the Colorado Telephone company, the Hotel Victor, on the opposite side of Fourth street, and the three great shaft houses of the Gold Coin Mining company and its ore bins, among the largest in the Cripple Creek district.

From there the flames were swept northward by the half-hurricane which was blowing and never stopped until they had taken the Florence & Cripple Creek depot and the fine new depot of the Midland Terminal road at the head of Fourth street. All the buildings between these are a total loss, with practically all their contents, for the flames were so rapid in their progress that nothing could be saved.

The residence portion of the city has suffered little, but the business part is paralyzed, and suffering is bound to follow.

The principal losers are: Florence & Cripple Creek depot, and freight sheds, \$10,000; the Midland Terminal depot and freight sheds, \$7,000; the Gold Coin shaft-house, \$30,000; the Morrell Hardware company, \$50,000; J. W. Cunningham, \$50,000; Asa A. Reynolds, \$150,000; Gold Coin club house, \$20,000; W. S. Sexton, \$10,000, and the Victor hotel, \$40,000.

## NINE SOLDIERS DROWNED.

Raft Breaks in Crossing a River—Capt. Crane Saved.

Manila, Aug. 22.—Monday morning a reconnoitering party of the Twenty-fourth Infantry, under Capt. Crane, went up the Marikina valley. In crossing the Mateo river the raft on which they were floating split in two and nine men were drowned. Capt. Crane was saved.

## Upholds Big Four Engineers.

Indianapolis, Ind., Aug. 22.—P. M. Arthur, chief of the Brotherhood of Locomotive Engineers, who came here in response to a summons from the engineers of the Big Four railway system, announced after he had heard the statement of the engineers' demands that they have his approval. Up to this time nothing has been heard from President Ingalls, who is at Bar Harbor. The men say that unless the demands are granted a strike will be inaugurated about Oct. 1. The employees in the other departments of the road indicate that they will support the engineers in any action that may be taken.

## Iowa Populists Displeased.

Des Moines, Iowa, Aug. 22.—Chairman A. W. C. Weeks of the "middle of the road" populists is here arranging for the state convention of the party Aug. 30. Mr. Weeks said: "Trusts are the important issue of this campaign—trusts and the war. Neither the republican nor democratic parties has said what they would do with the Philippines. We will. We will denounce trusts so you can understand what it means. We expect to poll the biggest vote in populist history this year."

## Conference May Mean Much.

Washington, Aug. 22.—Much significance is attached to the visit of the secretary of war to Lake Champlain. Major-Gen. Wesley Merritt, commanding the department of the east, who was the first military commander in the Philippines, is still with the president. President Schurman of the Philippine commission is on his way to Plattsburg. Speculation is rife among war officers as to the outcome of the conference.

## Jimenez Expected at Santiago.

Santiago de Cuba, Aug. 22.—Gen. Juan Isidro Jimenez, who was arrested Friday in Cienfuegos and afterward released, is expected this week in Santiago, where he has many sympathizers. Elaborate arrangements are being made to receive the Dominican revolutionist.

## Indiana Saengerbund Ends.

Wabash, Ind., Aug. 22.—The great event of the Northern Indiana Saengerbund closed here Monday afternoon. Indianapolis was selected for next year's meeting, the date being the third week in August. Social Saengerbund, Indianapolis, won the gold medal.
